THE NORTH AMERICAN LEADER IN BLUETOOTH® **LIGHTING CONTROLS**

THE **MOST ADVANCED** AND EASY TO USE CONTROLS IN THE INDUSTRY

For over eight years, Avi-on has been providing the most advanced and easy to use IoT platform for wireless lighting controls in the industry. With over 500,000 nodes installed, Avi-on's patented no gateway architecture and industry leading commissioning and scalability management tools make lighting controls easy to install, easy to use, and cost effective...even for multi-thousand device systems.

SIMPLE
No gateways, no IT network infrastructure, no Cat5 cable, no panels

SCALABLE
One solution for whole project, indoor and outdoor, easy to expand or change

SECURE
UL 1376 Platinum IOT security rating + DLC 5.0 compliant for energy efficiency

COST EFFECTIVE
Maximize rebate, minimize installation cost, enjoy long-term flexibility

FAST, EASY, & AUTOMATED SET-UP & COMMISSIONING

PRE-SHIP
Opt to have account set up before the order ships

REMOTE
Opt to commission and make changes remotely

ON-SITE
Opt for on-site set-up, commissioning, and customization

"Avi-on Bluetooth Lighting Controls is a wireless, gateway-free solution that skips the extra routers and Cat5 cabling that other systems require. Installation is quick and easy, while saving time and money for our retrofit projects."

– Eric Hanian, Energy Management Consultants

ONE SOLUTION FOR INTERIOR & EXTERIOR APPLICATIONS

| Office | Warehouse | Manufacturing | Schools & Universities | Healthcare | Garage | Recreation | Parking |
